

Joseph Romano

Education

- 2007–2012 **Ph.D./M.S. in Mechanical Eng.**, *University of Pennsylvania*, Philadelphia, PA.
2002–2007 **B.S. in Computer Science with Honors**, *Johns Hopkins University*, Baltimore, MD.
2002–2007 **B.S. in Mechanical Eng. with Honors**, *Johns Hopkins University*, Baltimore, MD.

Ph.D. Thesis

- Title *Combining Tactile and Kinesthetic Information for Improvements in Human and Machine Haptic Systems*
- Committee Katherine Kuchenbecker, Vijay Kumar, Mark Yim, and Seungmoon Choi
- Description Tactile cues provide a wealth of information and have the potential to revolutionize haptic display technology and the performance of autonomous robotics. However, this information only becomes meaningful when correlated with the motion that generated it. My thesis shows that tightly coupling sensing and acting makes it possible to engineer systems with unique advanced capabilities.

Professional Experience

- 01/01/2017 - **Director of Engineering**, *Berkshire Grey*, Lexington, MA.
Today Engineering organization growth, architecture, and strategy. Company design portfolio definition.
- 06/01/2015 - **Technical Founding Team**, *Berkshire Grey*, Waltham, MA.
01/01/2017 Company strategy and core technology development integrating novel sensor/actuation components and feedback strategies for state-of-the-art manipulation and material transport capabilities.
- 09/01/2013 - **Research Scientist**, *Kiva Systems (Amazon Robotics)*, North Reading, MA.
06/01/2015 Project lead for next-generation robotic developments within Amazon.com fulfillment centers.
- 01/10/2012 - **Senior Robotics Engineer**, *Rethink Robotics*, Boston, MA.
09/01/2013 R&D for groundbreaking flagship product, Baxter, an interactive human-safe robot for manufacturing environments. Lead development for a variety of technical innovations including: interactive haptic feedback during robot task training, reactive motion control, robot tactile perception, force sensing and control, and dynamic modeling and calibration.[D3, D2]

- Summer 2010 **Visiting Researcher**, *Willow Garage*, Menlo Park, CA.
Developed robot manipulation capabilities that are now core components of the ROS and PR2 robot framework.[A4]
- 2006–2007 **Research Engineer**, *Johns Hopkins University Haptics Group*, Baltimore, MD.
Designed controllers for minimally invasive surgical systems, including steerable needles and snake-like robots.[A5]
- Summer 2005 **Engineering Intern**, *Department of Defense EOD*, Picatinny Arsenal, NJ.
Reverse-engineered foreign munitions for the development of training simulations. Developed add-on components to allow the QinetiQ Talon and iRobot Packbot to better perform improvised explosive device (IED) detection and disarmament missions in the field.

Technical Skills

Programming and Computer-related

Highly Experienced: C/C++, Python, OpenGL, ROS, L^AT_EX, Linux, Octave/MATLAB

Moderately Experienced: RTAI/Xenomai, Java, network administration

Mechanical Design

Highly Experienced: Pro/E, Solidworks, rapid prototyping (3D and 2D)

Moderately Experienced: AutoCAD, CNC & manual mill/lathe

Electrical

Highly Experienced: UL508A, NFPA, Safety standards, Industrial Controls

Moderately Experienced: AVR/STAMP/PIC programming, motor drive circuitry, SPI/I2C, sensor integration, PCB design & fabrication

Honors, Awards, and Professional Affiliations

Honors and Awards

Under Armour Armour39 Wearable Technology Challenge Finalist, 2014

Ashton Graduate Research Fellowship Award, 2007-2011

IEEE Haptics Symposium, Best Short Oral Presentation, 2010

Robotics and Automation Society Travel Award, ICRA, 2010

UPenn Outstanding Teaching Assistant Award in Mechanical Engineering, 2008

ASME Maryland Regional Design Competition, 1st Place Award, 2007

American College Hockey Association (ACHA) Academic All-American, 2006-2007

Affiliations

Institute of Electrical and Electronics Eng. (IEEE), Robotics and Automation Society

Association for Computing Machinery (ACM)
American Society of Mechanical Engineers (ASME)
